

Assessment Brief

Module Title:	Data Visualization
Module Code:	B9DA106
Assessment Title:	Continuous Assessment One
Assessment Number:	1
Assessment Type:	Tableau Practical Assignment
Individual/Group:	Individual
Assessment Weighting:	40%
Issue Date:	06/06/2025
Due Date/Time:	11.55pm on 27/06/2025
Mode of Submission:	MOODLE

Learning Outcomes to be assessed

1. Critically evaluate different visualization techniques and apply to tasks.
2. Appraise and interpret outputs from different categories and processes within data visualization.

Tableau Practical Assignment (100 Marks)

Select a publicly available dataset that complies with any one of the following themes:

1. Social & Economic Inequality
2. Mental Health
3. Urban Planning

WARNING: If you use a dataset that does not comply with one of the above themes, it will lead to a FAIL grade.

Task 1 (60 Marks)

Create a comprehensive Tableau dashboard containing **four distinct visualizations** that address different analytical questions about your chosen dataset.

Assessment Criteria:

- Visualization clarity and communication

Do visualizations communicate the message easily and clearly – do they have clear, descriptive titles and tooltips? Are they uncluttered? Do they use colour in a meaningful way?

(15 Marks)

- Visualization accuracy

Do visualizations communicate the message accurately – do they use appropriate variables and aggregations? They must not mislead!

(15 Marks)

- Interactive elements (filters, parameters, actions)

Do filters, parameters, and actions enhance analysis and create a seamless experience?

(15 Marks)

- Professional dashboard layout

Does the dashboard have appropriate size, consistent formatting, and optimal spacing?

(15 Marks)

Task 2

(40 Marks)

Provide a 2000-word (+/- 10%) critical analysis report addressing:

- Design justification – Explain your choice of visualization types for each chart and compare alternative visualization methods you considered. Evaluate the effectiveness of interactive elements you implemented. Analyse how your colour and label choices support data interpretation.

Assessment Criteria – Critical thinking – Evidence of evaluation, synthesis, and original thought rather than just description

(20 Marks)

- Key findings – Identify and explain the most significant patterns revealed by your visualizations. Discuss any unexpected discoveries or counterintuitive results. Compare insights gained from individual charts versus the integrated dashboard view.

Assessment Criteria – Analytical depth – Quality of interpretation and insight generation

(20 Marks)

Deliverables

- Critical analysis report (.pdf format)
- Tableau workbook (.twbx format)
- Dataset used

Put all the above in a zipped folder and submit using CA1 link in Moodle.

Grade bands & their descriptions

Bands	Description
90-100	Exceptional: Far exceeds the threshold of the assessment rubric in all of the categories. The standard consistently far exceeds what would be expected at this NFQ level.
80-89	Outstanding: Achieves all the minimum learning outcomes. Exceeds the threshold of the assessment rubric in all of the categories. The standard consistently exceeds what would be expected at this NFQ level.
70-79	Excellent: Exceeds the threshold of the assessment rubric in most of the categories. The standard is much better than what would be expected at this NFQ level.
60-69	Very Good: Meets the threshold of the assessment rubric in most of the categories and exceeds in some. The standard is better than what would be expected at this NFQ level.
50-59	Good: Meets the threshold of the assessment rubric in some of the categories of the assessment rubric. The standard is what would be expected at this NFQ level.
40-49	Sufficient: Achieves all the minimum learning outcomes. Meets the threshold of the assessment rubric in a few of the categories. The standard is what is expected at this NFQ level.
30-39	Somewhat fulfilled: Achieves some but not all of the minimum learning outcomes. Meets the threshold of the assessment rubric in some or a few of the categories. The standard is below what is expected at this NFQ level.
20-29	Limited fulfilment: Achieves a few of the minimum learning outcomes. Meets the threshold of the assessment rubric in only a few of the categories. The standard is well below what is expected at this NFQ level.
0- 19	Unfulfilled: Does not achieve any of the minimum learning outcomes. Meets the threshold of the assessment rubric in none of the categories. The standard is considerably less than what is expected at this NFQ level.

Can generative AI be utilised in this assignment?

You can use generative AI for idea generation or brainstorming. If you do, you are encouraged to acknowledge it in the pdf document. However, you cannot submit AI-generated visualizations or report as your solution. All visualizations must be created by you in Tableau itself.

General Requirements for Students:

1. All assignments must be submitted no later than the stated deadline (date and time).
2. Assignments submitted after the latest deadline specified (including any approved extension deadline) are considered late and penalised according to the [Quality Assurance Handbook \(QAH\) Part B Section 5.2.2.6](#) as follows:
 - a. A penalty of 2 marks will be applied per day or part thereof (including weekends and public holidays) for an ongoing failure to submit beyond the submission deadline.
 - b. An examiner has the right to refuse to mark the assignment if the submission instructions have not been observed.
 - c. Where a late assessment is submitted within 14 days of the deadline, and is of a passing standard, the late penalty is capped (such that the minimum grade that can be awarded is 40% for the late submission).
 - d. Where a late assessment is submitted more than 14 days after the deadline, it will receive 0%. The lecturer may, at their discretion, review the submission for feedback.
 - e. Where the assessment is undertaken in a group, the piece of work should be submitted in its complete entirety, and any penalty for late submission incurred applies to all group members.
2. Extensions to assignment submission deadlines will not be granted, other than in exceptional circumstances. To apply for an extension please go to <https://students.dbs.ie/dashboard/SCCM> and open a ticket.
3. All relevant provisions of the Assessment Regulations must be complied with (see [QAH B.5](#)).
 - a. Students are required to refer to the assessment regulations in their Programme Handbook, and on the [Student Website](#).
 - b. Dublin Business School penalises students who engage in academic impropriety (i.e. plagiarism, collusion and/or copying, ghost writing/ essay mills, improper use of Generative Artificial Intelligence software).
 - i. Refer to the College's [Generative AI Guidelines HERE](#) for further information.
 - c. Guides on referencing are available on the Library website: <https://libguides.dbs.ie/referencing>
 - d. Text-matching analysis software is integrated in Moodle to generate a report regarding the degree of text-matching in a submission.
4. Students are required to retain a copy of each assignment submitted, until the issuing of a transcript indicating the mark awarded and the closure of the Appeal period (2 weeks following the release of final results).

- a. Results can only be appealed following the release of final results, and the Appeal form must be submitted to the Exams Office within the Appeal period.
 - b. An appeal must be based on valid grounds (see the Appeals Policy QAH B.3.5), dissatisfaction with a grade is not sufficient grounds for an appeal.
 - c. Assignments must be appropriately packaged and presented.
 - d. All assignments should be submitted to your subject/course page on Moodle by the deadline date.
 - e. Where a submission involves digital media (i.e. formats other than Word, PowerPoint or PDF), it is the submitting students' responsibility to ensure the media is appropriately labelled, fully working and they must retain a copy.
 - f. Components of an assessment which are not included in the final submission cannot normally be subsequently accepted for grading. It is the student's responsibility to ensure their file is uploaded correctly.
5. When you submit your assignment, you will be asked to click on a button which will declare the following:

By ticking this box, I am confirming that this assignment/exam is all my own work. Any sources used have been referenced.

I have read the College rules regarding plagiarism in the QAH Part B Section 3 and understand that penalties will be applied accordingly if work is found not to be my own. All work uploaded is submitted via Ouriginal, whereby a text-matching report will show any similarities with other texts.
